We are an urban residential painting company experienced in both maintenance and decorating.

Interior

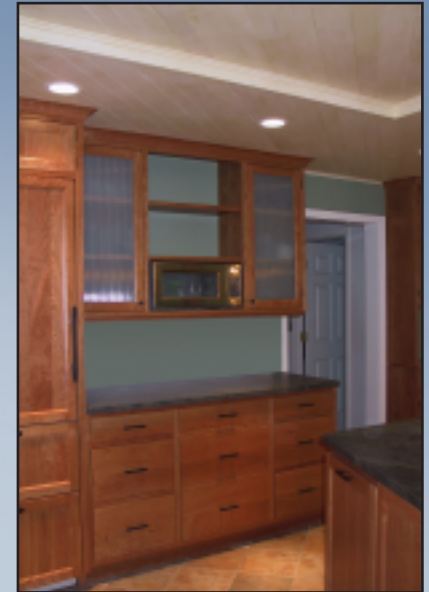

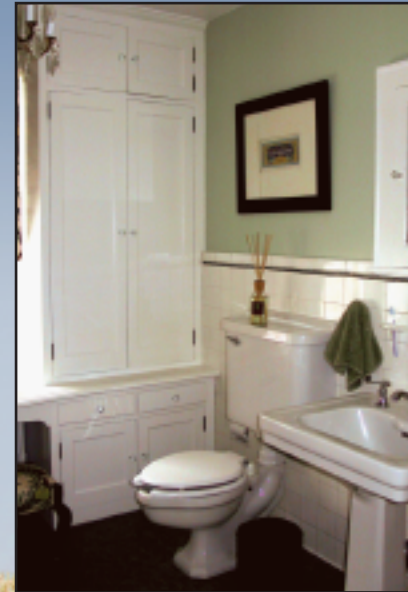

We repair water damage, strip wall-paper, float ceilings, make plaster repairs, recondition sash windows and perform general repairs. We also paint walls, ceilings and trim; refinish woodwork; hang wallpaper and apply faux finishes.

Exterior

We ensure the longevity of your paint job by performing the appropriate prep, and using the best primers and finish paint. We paint houses to last.

Design

We love color, and we are excited to help you make the choices in shade and hue that will make your home classy and subdued, or vibrant and lively.
